

INSTRUCTIONS:

Submit original and one copy of the permit and application to the Captain of the Port having jurisdiction over the load/discharge location. (33 CFR Part 3)

This application and permit are required under the following regulations:

33 CFR 126
49 CFR Subchapter C

Supplemental information required by the above regulations must be appended to this application.

Proper Shipping Name means the name of the cargo as prescribed in 49 CFR 172.101 or the International Maritime Dangerous Goods Code.

CONDITIONS

This permit is subject to the following conditions:

- a. The limits as to minimum quantity, isolation, and remoteness established by local, municipal, territorial or state authorities halving jurisdiction (or the quantity of this permit) shall not be exceeded by this operation. This permit does not authorize the violation of any applicable state or municipal law, ordinance, regulation or permit.
- b. The Captain of the Port shall be notified immediately of any changes in quantity, times, dates, or of any matters that might affect the safe handling or transportation of the cargo covered by this permit.
- c. All applicable laws and regulations unless waived by the Captain of the Port, and all directions or orders of the Captain of the Port or his authorized representative, shall be complied with.
- d. The shipment shall be inspected by the authorized representative of the Captain of the Port before the shipment is received by the facility, unless otherwise authorized by the Captain of the Port.
